IN PARTNERSHIP WITH...
OUTFORM

GEN3 NOW IN STOCK

Contactless Technology

As people become increasingly conscious and hesitant to touch public surfaces, contactless interaction is among top priorities for people today. Triggered by facial recognition, users can have their temperature read by simply standing within three feet of iDISPLAY Thermometer.
Rapid Response

A frictionless interaction, iDISPLAY Thermometer enables users to have their temperatures read in a matter of 2 seconds, ensuring a steady and safe flow of traffic into public spaces.

Thermal Imaging Powered By Omron Sensor

Backed by the world's leading technology in infrared thermopile arrays known as the Omron Sensor, iDISPLAY Thermometer can recognize and capture different levels of infrared light to accurately and rapidly detect temperature.

Online and Analytics Support

Analytics / Sdk / Apk
Security Card Access
Attendance Record
Option For Face Recognition
Optional NFC For Secure Entrance Area.

Generation 3 Now Released
Key Features & Benefits

The newly released Generation 3 iDISPLAY brings a whole range of additional features to the market. Once connected to the Cloud you can remotely control and configure a network of iDisplays and view real time device usage. Know instantly if a high temperature alert is triggered via email / text notifications.

- ⊘ Upgraded Android 8.1 OS
- ⊘ Upgraded 16GB RAM
- ⊘ Email & Text Notifications
- ⊘ Cloud Server for Data Analysis
- ⊘ Ticket Printing Capabilities
